

individual food must meet the definition for the claim based on the amount of the subject nutrient in an amount of the food equal to its reference amount, e.g., a "low fat" food may contain up to 3 grams of fat per reference amount. When a food's reference amount is small (i.e., 30 g or less or 2 tablespoons or less), the food (e.g., a sauce or condiment) must also meet the requirements for the claim based on its nutrient content per 50 grams.

Question: Must a restaurant develop recipes for, analyze, and market, a reference food for every food that bears a relative claim?

Answer: No. The reference food may be the restaurant's regular product, or that of another restaurant, that has been offered for sale to the public on a regular basis for a substantial period of time. Nutrient values for a reference food may also be derived from such sources as a valid data base, an average of top national or regional brands, or a market basket norm (§ 101.13(j)(1)(ii)).

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV-060-1990-01]

Notice of Availability for the Round Mountain Mill and Tailings Facility Draft Environmental Impact Statement and Notice of Comment Period and Public Meetings

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of availability for the Round Mountain Mill and Tailings Facility Draft Environmental Impact Statement (EIS), for the Smoky Valley Common Operation, Nye County, Nevada; and notice of comment period and public meetings.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act, 40 CFR 1500-1508, and 43 CFR 3809, notice is given that the Bureau of Land Management (BLM) has prepared, with the assistance of a third-party consultant, a Draft EIS on the proposed Round Mountain Mill and Tailings Facility, and has made copies available for public and agency review.

DATES: Written comments on the Draft EIS must be submitted or postmarked to the BLM no later than November 22, 1995. Oral and/or written comments may also be presented at two public meetings, to be held:

October 17, 1995; 7 p.m.; Donald Simpson Community Center, Hadley, Nevada

October 18, 1995; 7 p.m.; Airport Plaza Hotel, 1981 Terminal Way, Reno, Nevada

ADDRESSES: Written comments on the Draft EIS should be addressed to: Bureau of Land Management, Battle Mountain District, Post Office Box 1420, Battle Mountain, Nevada 89820, Attn.: Christopher J. Stubbs, Round Mountain EIS Project Manager. A limited number of copies of the Draft EIS may be obtained at the same address. In addition, the Draft EIS and supporting documentation are available for review at the following locations: BLM, Battle Mountain District Office, Battle Mountain, Nevada; BLM, Nevada State Office, Reno, Nevada; and the Getchell Library, University of Nevada, Reno, Nevada.

FOR FURTHER INFORMATION CONTACT:

Christopher J. Stubbs, Round Mountain EIS Project Manager, Bureau of Land Management, Post Office Box 1420, Battle Mountain, Nevada 89820, (702) 635-4000.

SUPPLEMENTARY INFORMATION: The Smoky Valley Common Operation has submitted a Plan of Operations Amendment for the construction, operation, and reclamation of a mill and tailings facility at the Round Mountain Mine. The mine currently consists of 4,767 acres of surface disturbance: 3,659 acres of land administered by the BLM, 515 acres of land administered by the Toiyabe National Forest, and 593 acres of patented land owned by the Smoky Valley Common Operation. The proposed facilities would comprise an expansion of the existing operation at the Round Mountain Mine to improve the recovery of gold from ore that is being mined from the existing open pit. Ancillary facilities would include a new primary crusher; a power line; fresh water, reclaim water, and tailings pipelines; and a septic system. The proposed facilities would be located on approximately 757 acres of public land administered by the BLM, Battle Mountain District Office, Tonopah Resource Area. Of this acreage, approximately 250 acres occur on public lands outside of the existing permit boundary. Construction is scheduled to begin in early 1996; operation of the mill and tailings facility would begin in 1997 and continue until 2008.

This Draft EIS analyzes the environmental impacts associated with the proposed mill and tailings facility and ancillary facilities, a range management alternative, an alternative tailings impoundment site, and the no action alternative. In addition, the Draft EIS analyzes potential impacts associated with pit dewatering and pit water quality, and the leach offload piles. Issues analyzed in the Draft EIS include geology and minerals, water resources, soils and watershed, vegetation, wildlife and fisheries, range resources, paleontological resources, cultural resources and Native American concerns, air quality, access and land use, recreation and wilderness, social and economic values, visual resources, noise, and hazardous materials.

A copy of the Draft EIS has been sent to all individuals, agencies, and groups who have expressed interest in the project or as mandated by regulation or policy. A limited number of copies are available upon request from the BLM at the address listed above.

Public participation has occurred during the EIS process. A Notice of Intent was filed in the Federal Register in August 1993, and an open scoping period was held for 120 days. Two public scoping meetings to solicit comments and ideas were held in November 1993, and a newsletter was issued to keep the public informed of the progress of the EIS. All comments presented to the BLM throughout the EIS process have been considered.

To assist the BLM in identifying and considering issues and concerns on the proposed action and alternatives, comments on the Draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters in the document. Comments may address the adequacy of the Draft EIS and/or the merits of the alternatives formulated and discussed in the document. Reviewers may wish to refer to the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. After the comment period ends on the Draft EIS, comments will be analyzed and considered by the BLM in preparing the Final EIS.

Dated: September 12, 1995.

Jeffrey A. Weeks,

Acting District Manager.
